

EDST Policy on Undergraduate Enrolment in Graduate Seminars.
Approved at EDST Department Meeting on March 12, 2009

In addition to the terms set out in the Faculty of Graduate Students Policy on the enrolment of undergraduate students in graduate courses,* it is recommended that normally no more than two (2) undergraduates may be enrolled in any given EDST graduate course at a time. All other terms must apply: undergraduate students' registration must be approved by the course instructor, undergraduate students must have maintained a 76% average in their third- and fourth- year courses, and they must have completed 75% of their program to enroll in a graduate course.
