Description

This course provides students entering the teacher education program opportunities to inquire into the context and nature of schooling as a key institution in a pluralist and democratic society. This course aims to illustrate how schooling is a site for competing politics and philosophies about the role of education in society and the work of teachers.

The course is organized around various themes: (1) the relationship between schooling and society and the competing purposes of schooling; (2) conceptions of social justice and the applicability of these conceptions to the understanding of contemporary schooling; (3) the connections among teaching, policy, and schooling; (4) the possibilities and limitations to develop teachers as inquirers and activists; (5) popular media as informal public pedagogies of citizenship and consumer culture; (6) dimensions of media representation process; (7) constructions of identities through engagements with media.

Course Objectives

EDST 401 is designed to provide learning opportunities for students to:
1. Explore the relationship between society, education, and schooling;
2. Develop an understanding of the competing purposes that public schools serve in Canadian society and the implications for teachers;
3. Identify and critically assess key assumptions underpinning discussions of diversity and the different conceptions and practice of social justice in schools;
4. Understand the connection between politics and policy and the competing interests involved in the educational policy arena;
5. Explore relevant and current educational policy debates;
6. Explore how identities are constructed and negotiated through engagement with media.

Course Structure

The course will involve a combination of mini-lectures, small group in-class activities, and discussion of assigned readings. Some of the readings may cover unfamiliar material.
In order to participate effectively in class, students will be asked to use the following as a reading and note-taking guide that they will bring to each class: 1) synthesis of the reading in approximately one paragraph; 2) a response to the reading in one paragraph (e.g., a new idea or an example, discussion of a point of agreement or disagreement and the reasons for this stance, relating an idea to lived experience, discussion of the implications for teaching, etc.; 3) the posing of critical questions about the reading that will enhance the class’s understanding of course themes.

Course policies:

EDST 401 is a pass/fail course. Students are expected to meet all criteria and standards equivalent to a minimum of B+ (76%) to receive a passing mark. In a professional and academic faculty, passing a course entails both good academic performance as well as active participation in learning activities. In cases where students fail to meet expected standards, they will have the opportunity to revise and resubmit written assignments. In such cases, the instructor will ask students to attach the first draft of their assignment and highlight the changes they have made to it in response to the instructor's comments. If students have two assignments that do not meet expectations or they continue not to meet expectations in participation or attendance, the instructor is required to complete and Interim Report, a copy of which is signed by the teacher candidate and the instructor and then filed with the Teacher Education Office and the Department of Educational Studies.

Instructors are responsible for providing students with timely, specific, and helpful responses to their written assignments. The Department of Educational Studies strongly recommends that when instructors hand back assignments to students, they provide written evaluative comments on a separate sheet (or electronically). Instructors can retain copies of these written comments in their files, and should a student request a letter of recommendation from an instructor in the future (e.g., if he or she applies to a graduate program), the instructor can draw from this accumulated written record. Instructors are also encouraged to use this record to keep track of any student who excels in all aspects of a particular course, and on the basis of that exemplary record, instructors are further encouraged to nominate such exemplary students for scholarships and awards.

1. Academic Accommodations

UBC has a commitment to accommodate students in its instructional programs. Students may make their needs known to the Teacher Education Office Program Coordinator and arrange to meet with an Access and Diversity office advisor to determine for what accommodations/services they are eligible. Students can find more information in the Bachelor of Education Program Policy Handbook at: http://www.students.ubc.ca/access/disability-services/. Students may inform their instructors of any accommodations that are needed for the class.

Religious Observances

Students will not be penalized because of observances of their religious beliefs.
Whenever possible, students will be given reasonable time to reschedule any academic assignment that is missed due to participation in a religious observance. Students are responsible to inform the instructor of any intended absences for religious observances in advance.

2. Academic Integrity (plagiarism)

Students will follow UBC’s policy on plagiarism and academic misconduct and should refer to the "Academic Regulations" of the Bachelor of Education Program Policy Handbook and UBC’s calendar online under “Academic Misconduct”. Of note are the following policies taken from the latter’s website:
http://www.students.ubc.ca/calendar/index.cfm?tree=3,54,111,959

1. Cheating, which includes but is not limited to falsifying any material subject to academic evaluation and using of or participating in unauthorized collaborative work.
2. Plagiarism, which is intellectual theft, occurs where an individual submits or presents the oral or written work of another person as his or her own. Authorship of excerpts used must be acknowledged in the text, footnotes, endnotes, or another accepted form of academic citation. Where direct quotations are made, they must be clearly delineated, and failure to provide proper citation is plagiarism as it represents someone else’s work as one’s own. Students are responsible for ensuring that any work submitted does not constitute plagiarism. Students who are in any doubt as to what constitutes plagiarism should consult their instructor before submitting any assignments.
3. Submitting the same, or substantially the same assignment, presentation, or essay more than once (whether the earlier submission was at this or another institution) unless prior approval has been obtained from the instructor(s) to whom the assignment is to be submitted.

3. Attendance and Class Participation

Attendance and punctuality are absolutely essential to the professional conduct of the teacher and teacher candidates are expected to demonstrate both throughout the program.

In accordance with the Faculty of Education's attendance policies, students who must miss a class should notify the instructor as soon as possible. Any absence should be discussed with the instructor. Unexcused absences may result in a "Fail" or being required to withdraw from the course. In the event that two or more classes are missed, the Teacher Education Office will be notified. If students are absent for an assignment or unable to complete an assignment due to illness, they must obtain a statement from a physician or from Student Health Services to be submitted to the Teacher Education Office as soon as possible. Students requiring an academic concession due to illness or extenuating circumstances should contact the instructor as soon as possible. Please refer to the “Attendance, Assignments and Performance” section of the Bachelor of Education Program Policy Handbook for further details.

In order to pass, students must demonstrate that they have completed the required readings, listened actively, and participated in group and/or class discussions. In recognition that students learn differently and comfort levels in group and class dynamics, those who are reticent to
discuss in class may submit written summaries and reflections of the required article readings; however, voicing and sharing one's thoughts in class is highly encouraged and welcomed.

4. Accessing readings and submitting work electronically:

All readings for this course are available online, through Connect. **There is no printed course reader.**

Readings are available by clicking the hyperlinks (for off-campus access you may need to be using VPN and must be logged onto your CWL account) **and** under the “Library Course Reserve” tab, under the “Content” tab in Connect.

It is your responsibility to ensure that you have the readings for any given week ahead of time, even in the event that Connect is not operating properly. For this reason I recommend that you download the readings in advance. You may choose to print your readings or not. All of the readings are available to you on Connect as of the first day of the course.

You are also to **submit all assignments for this course electronically, using Connect. I do not accept paper copies of assignments.** I will mark and return your assignments to you electronically as well.

5. Copyright

Students should familiarize themselves with, and comply with, UBC’s Copyright Guidelines and applicable copyright laws. See: [http://copyright.ubc.ca](http://copyright.ubc.ca)

6. Late assignments and extensions:

The evaluation for this course is pass/fail. In a professional course, my expectation is that you will submit assignments on time. Excessively late assignments are at risk of receiving a failing grade. If you submit two late assignments, **I will file an Interim Report with the Teacher Education Office.** Late presentations will not be accepted and supplemental work may be required.

However, I have a liberal extension policy for written work. (No extensions will be granted for presentations because of our packed schedule.) For written work, you may ask for any extension you wish, provided that you meet the following requirements: (a) You must write to me in advance, a minimum of 2 days is required, to request an extension; (b) You must pick the new due date for your assignment – you may choose any due date you wish – and inform me of that date; (c) You must submit your assignment by the new due date, as no further extensions will be granted.

**Note:** Except under exceptional circumstances, I will **not grant extensions that carry over into the practice teaching bloc.**

Evaluation Criteria and Assignments
The course is graded on a pass/fail basis. In a professional faculty, passing a course entails both good academic performance as well as active participation in learning activities (i.e. contributions to the class, exemplary attendance, and punctuality). Students are expected to meet all criteria to receive a passing mark in the course. Reminder: a passing mark in the Teacher Education Program is B+ (76%) or higher. In cases where students fail to meet expected standards, they will have the opportunity to revise and resubmit the written assignments. There are three assignments for this course.

Course Evaluation

Summary:

Assignment One: 35 percent.
Assignment Two: 35 percent.
Assignment Three: 30 percent.

Weighting: 35%

Essay.

Due: no later than Friday, October 9th, 2015 at 11:59PM. Submitted electronically on Connect.

Length, style, and presentation: 1500 words, double-spaced. Include references in Chicago, APA, or MLA format (i.e. footnotes or parenthetical references) and a bibliography. Attach a title page. On the title page, type your name and re-type your thesis statement or argument (i.e. copy it from the body of your essay).

Drawing on the discussions in class during this course and ideas in readings, construct a 1500-word essay response to any ONE of the following questions. Your essay response must take a position and include a clear and concrete argument or thesis statement. (It is perfectly acceptable to write “In this essay, I will argue...” or “My argument is...”) You must make direct reference to the appropriate readings. Each question is designed around a course theme that we will have covered by October 7th, 2015. In answering your question, however, you may draw on ideas and readings covered under both of the first two themes. You may, if you wish, do additional research for this essay as well, although this is not required.

i. How well do public schools serve different and competing interests? (Theme 1.)

ii. What are the essential features of social justice in education? (Theme 2.)

Assessment Criteria
Pass: (1) well written (logically organized, good paragraphing; concise; proofread for grammar and spelling); (2) clear argument or thesis statement; (3) supports claims with citations from the document and examples and claims are appropriately referenced (e.g. footnotes or parenthetical references); all works referenced are listed in the bibliography; (4) demonstrates a synthesis of course concepts and themes and makes connections to pertinent course readings and class discussions; (5) highlights your insights and conclusions; (6) respects the requirements for length, title page, etc.

Fail: (1) poorly written (recurring errors of grammar, spelling; lacks paragraphs; verbose or wordy); (2) No argument/thesis statement, or argument not clear. (3) lacks supporting claims, or claims not properly cited; (4) fails to demonstrate comprehension or application of course content, including class discussions and appropriate readings; (5) does not provide insights, conclusions; (6) does not respect the requirements for length, title page, etc.

II. Assignment Two. Group inquiry into social justice and educational policy in BC and presentation

Weighting: 30% assignment, 5% peer evaluation.

Group presentation

Presented: either on Wednesday December 2nd, or Wednesday, December 7th, in class. (Peer evaluation due: day of your presentation. Submitted electronically on Connect.)

Increasingly teachers are required to translate changes in educational policy and practice for a variety of audiences, including other teachers, parents, and community groups.

Select a BC educational policy that you think has some relevance to social justice (e.g., special education/inclusion, accountability, independent school funding, Gay-Straight alliances, ELL policy).

Develop a 15-minute presentation on this policy that:

- Describes and explains the policy concisely in plain, non-technical language.

- Evaluates the policy from a social justice standpoint. Develop an evaluation statement and make sure that you make it explicitly clear during your presentation.

Submit your peer evaluation.

Assessment Criteria for Assignment Two:

Pass: (1) examines a BC-related educational policy and with reference to social justice; (2) presentation easy to follow (concisely describes the policy and develops and makes explicit an evaluation statement) (3) provides examples and explanations based on course readings.
Fail: (1) does not examine BC policy and/or neglects social justice mention; (2) presentation is disorganized, has no point, is not easy to follow (does not concisely describe the policy and does not develop and present an evaluation statement) (3) lacks examples based on course reading; (4) lacks transitions between thoughts or lacks coherence.

III. Assignment Three. Film Review

Weighting: 30%

Due: no later than December 18th, 2015, at 11:59PM. Submitted electronically on Connect.

Length, style, and presentation: 800-1000 words (typed, double spaced). Include references in Chicago, APA, or MLA format (i.e. footnotes or parenthetical references) and a bibliography. Attach a title page. On the title page, type your name and re-type your thesis statement or argument (i.e. copy it from the body of your essay).

Important note: A critical film review is not a plot summary of the film. Do not summarise the plot. (Assume that I know the plot because I have seen the film; in almost every case, I have.) Rather, pick out the most important parts of the film for your analysis and centre on those. Make sure that your film review has a thesis and is argument-driven.

Some questions you may wish to ponder. (Your review need not answer all of them.) What messages does the film send about schools, teachers, students? What representations does the film use to send these messages? What are the politics behind the film? What response you believe it is intended to solicit in its audience?

In answering these questions you must make reference to at least one of the three articles assigned for the class on December 9th, 2015.

Please select from the following list of films. If you wish to use a film not on this list, you may do so, as long as you consult with me ahead of time and I approve your choice.

Blackboard Jungle (1955).
Dead Poet’s Society (1989).
Lean on Me (1988).
Mr. Holland’s Opus (1996).
Stand and Deliver (1988).
To Sir, With Love (1967).
Up The Down Staircase (1967).
Whiplash (2014).
Won’t Back Down (2012).

Assessment Criteria for Assignment:

Pass:
(1) well written (logically organized, good paragraphing; concise; proofread for grammar and spelling); (2) clear argument or thesis statement; (3) supports claims with citations from the document and examples and claims are appropriately referenced (e.g. footnotes or parenthetical references); all works referenced are listed in the bibliography; (4) demonstrates a synthesis of course concepts and themes and makes connections to pertinent course readings and class discussions; (5) highlights your insights and conclusions; (6) respects the requirements for length, title page, etc.

Fail:
(1) poorly written (recurring errors of grammar, spelling; lacks paragraphs; verbose or wordy); (2) No argument/thesis statement, or argument not clear. (3) lacks supporting claims, or claims not properly cited; (4) fails to demonstrate comprehension or application of course content, including class discussions and appropriate readings; (5) does not provide insights, conclusions; (6) respects the requirements for length, title page, etc.

Relation of course to Standards for Educators in BC (Teacher Regulation Branch)

The readings, class discussions, and assignments in this course primarily contribute to teacher candidates’ attainment of Standard 6: Educators have a broad knowledge base and understand the subject areas they teach. This standard indicates that “Educators teach students to understand relevant curricula in a Canadian, Aboriginal, and global context. Educators convey the values, beliefs and knowledge of our democratic society.”

The course helps teacher candidates understand the differing views regarding the purposes of education. Second, it enhances their awareness of current policy debates in education. Third, it helps them to explore and understand the types of institutional and attitudinal barriers that certain groups in Canadian society have experienced and how these barriers have hindered full and equitable participation in schooling. Fourth, it helps them understand the current media landscape and the implications for teaching democratic citizenship. Given the pervasiveness and influence of media in our daily lives, beginning teachers need to consider them alongside public schooling as sites of education and miseducation of children and youth. The course helps teacher candidates to explore how news and entertainment media serve as informal public pedagogies of citizenship, consumer culture, and identity formation for children and youth. This course also contributes to teacher candidates’ attainment of Standard 8: Educators contribute to the profession. It includes a unit on “Educational policy and teaching” as well as a unit on “Teacher inquiry and action,” where teacher candidates have the opportunity to explore the idea of teacher leadership and the role of teachers as “knowledge translators.”
